“We now have a **fantastic domestic product** that not only **beats the major retailers** in terms of functionality and price but also offers a **great credit deal** to our customers and (the best part) there is no financial commitment from ourselves!”

Daniel Balmer, Lion Global Security Ltd.

The new webeye assured RAPID is a low cost and attractive new system for the domestic security market. It offers police response and a 24/7 365 days a year automated monitoring service for an amazing price.

EXCLUSIVE DEAL FOR RESIDENTIAL INSTALLERS

What is in the alarm system?

The new webeye assured RAPID alarm and monitoring solution is based around the alarm panel with integrated keypad and comes with a 9v power supply, ethernet cable and global roaming SIM card. It works to the award winning webeyeCMS cloud based alarm and monitoring platform enabling it to have fastest alarm delivery on the market. It is designed to look good and work well in residential and small business environments. All peripheral devices are battery powered and wireless for easy installation. Webeye Limited is offering an initial ‘Starter pack’ as a low cost introduction to the consumer, available as either a ‘Blind’ (PIRs only) or visual verification (internal camera) system.

Visual verification starter pack:

- Panel with integrated keypad
- Internal camera
- Pet immune PIR
- Door contact
- Remote control with panic button
- 4 years subscription to webeyeCMS

Blind starter pack

- Panel with integrated keypad
- x4 Pet immune PIRs
- Door contact
- Remote control with panic button
- 4 years subscription to webeyeCMS

We have additional peripherals to ‘up-sell’ the system and the opportunity to create a bespoke system for your customers:

- Wireless indoor motion detector
- Wireless indoor camera
- Wireless door contact
- Wireless remote control fob
- Wireless outdoor camera
- Wireless flood sensor
- Smoke detector
- Wireless panic watch
- Wireless keypad
- Wireless LCD keypad
- Wireless internal siren
- wireless external siren

How does the deal work and how will it benefit my business?

We believe we have a great solution for the residential market and a great offer for you to increase your profit and help sell it into homes across the UK! Webeye Limited administers the credit agreement and has produced the marketing material so all you have to do is install the system and watch your bank balance grow.

1. You install it.

If a potential customer is interested we ask you to make a no obligation site visit to survey their property and discuss the options. If there are no complications and the customer agrees we will pay you £99* on satisfactory completion of the installation. You will have the opportunity to offer further peripherals with the RAPID sales app to use on a tablet which guides you through the process and even generates the credit agreement.

2. We help with the marketing.

We have produced a dedicated website to promote the system along with various brochures and flyers to help explain the concept. The RAPID sales app is also a valuable resource at your disposal.

3. We do the paper work, you just sit back and take the revenue.

Additional to the purchase price there is a service charge of £23.99 per month. This is a 4 year contract which is set up by app and administrated by Webeye Limited and is an agreement between the customer and Webeye Limited. We take the money but pay you back 20% of the ex. VAT revenue** each month for each installation until the end of the contract. All we ask is you visit the site once every 2 years to check the system.

4. We train you.

All training on how to install, configure and use the system is given at our HQ where you will be accredited as one of our approved installers and guided through the sales process.

*If you are VAT registered we will pay you £99 exclusive of VAT. Further devices installed will be paid at £8 excl. VAT per device. **You are paid the ex. VAT revenue figure i.e. £23.99 inc. VAT is £19.99 excl. VAT.
